- **Speak to the Organisers' security company for advice if you have specific concerns.** There is no lockable store for valuable items, such as computer equipment overnight. If you have valuable material on your stand (high-tech material such as plasma screens), make your own arrangements for the night.
- **Plan your arrival and departure from the venue during Build-up & Breakdown.** Ensure that there are at least two representatives setting up and dismantling your stand, so that the stand is never left unattended during these vulnerable periods. Plan to remove all products and portable items from your stand on the first evening of breakdown.
- **Book sufficient staff for your stand during the show.** This ensures it is always staffed. Do not ask a neighbouring exhibitor to watch over your stand while you go for a break. They may become busy and not be able to keep an eye on your stand. Never leave your stand unoccupied during the exhibit hours and wear your booth staff badges at all times during the exhibit hours.
- **Place a lockable cabinet on your stand.** Lock away brief cases, mobile phones, handbags, laptops, etc during the day, even when you are on your stand. If you get busy, you may not notice someone taking them. Please also check all lockable units on your stand before leaving them at night. Always keep the storage room closed and locked and never leave the keys in the locks.
- **Do not position desirable items at the front of your stand.** You may not always be able to keep an eye on them and they may be easily removed.
- **Avoid leaving your stand each evening before visitors are clear of the show.** Likewise, ensure your stand is fully manned by the show opening – remember, however, the halls are open each morning from 08.00 hrs for all exhibitors and their maintenance staff.
- **Report anything of a suspicious nature to the Organisers or security.** Leads can be followed up to avoid incidents of theft.
